

Michelle Ranae Wild, M.A.
President/CEO, Brain Education Strategies & Technology

Michelle Ranae Wild is the President/CEO of Brain Education Strategies and Technology (BEST) a non-profit the mission of which is to develop, research and disseminate the best practices for teaching strategies and technologies for the benefit of people with conditions that affect the brain. In addition, she is a professor at Coastline Community College and has taught in Coastline's Acquired Brain Injury Program for 30 years. She has authored Making Cognitive Connections workbooks on the use of Apple-based, Android-based, and Windows-based smart devices as cognitive prosthetics. She provides a series of online app trainings for individuals with cognitive challenges, their caregivers, and the professionals who work with them. In addition, she recently released the BEST Suite, an integrated suite of apps including PaceMyDay (energy/time management) and ReachMyGoals (setting and monitoring SMART goals). Her materials are in use in various schools, rehabilitation facilities, VA hospitals, and military hospitals across the country.
